MOUNT NITTANY MEDICAL CENTER EAST WING ADDITION

Alexander Building Construction Serves As Construction Manager For

STATE COLLEGE, PA (December 31, 2008) – Alexander Building Construction today announced the award of a construction management contract with Mount Nittany Medical Center in State College, PA.

The contract includes the oversight of construction for a 65,000 square foot addition and renovation to the existing hospital. It will be constructed above and adjacent to occupied patient areas. The addition will be three stories high and erected above an existing three story structure. The second Floor will be fit out with a 12-bed ICU and 9-bed acute care nursing unit, all in single-patient rooms. The third and fourth Floors will be fit out with acute care nursing units; 24 single-patient rooms on the third Floor and 23 single-patient rooms on the fourth Floor. The addition will be constructed in a single phase with new construction completed prior to connection to the existing facility. The project also includes significant upgrades to the Medical Center's mechanical and electrical infrastructure including emergency power systems.

###

ABOUT ALEXANDER: Alexander Building Construction Co. provides construction management and general contracting services for corporate, commercial and institutional clients in central Pennsylvania. With a heritage of over 80 years, the company has a reputation for high-quality, cost-effective construction management services and is recognized as the premier builder of the region's largest, most complex structures. The firm possesses significant experience in the construction of healthcare facilities, colleges/universities, retail buildings, K-12 schools, correctional facilities, corporate office buildings, and mid and high-rise residential towers.
