STEPS TO GET STARTED

There are several steps that will take place during the restoration of your property. The following list guides you through the necessary steps to get the work started.

- We will need a signed Work Authorization form to begin work either for Emergency Services or Restoration.
- Alexander will conduct a Forensic Construction Analysis to determine the scope of the damage.
- After we develop a detailed scope of the damage, we will review that scope with you to make sure everything is covered to your satisfaction.
- We will present a detailed estimate and scope for the repairs to you and your insurance company for their approval.
- Alexander will work closely with your insurance company to review the scope and estimate. In over 90 years of doing business we have always reached an agreed upon scope and cost for a claim with the insurance company.
- Once the proposal is approved, Alexander will secure the necessary building permits, begin ordering materials, and start the restoration process.
- During the restoration process, you will have a full-time Field Foreman assigned to your project that will be your day to day contact.
- After all repairs are complete, we will prepare a punchlist with you to make sure the work has been done to your satisfaction.

While working on your project, we will meet with you at the end of each workday at your discretion for a walkthrough. This is a great time to voice any concerns or ask questions.

“ A large organization committed to quality regardless of project size is very much an exceptional business in our contemporary business environment. The fact that you've built an organization which is structured to respond in an instant, and to provide a comprehensive service for a restoration project such as ours – all with the same attention to detail that the large projects receive – is a remarkable signature. ”

Scott Pidcock

Leaders in Property Repair and Restoration Services

OUR PROPERTY REPAIR AND RESTORATION SERVICES' VAST STRENGTHS INCLUDE:

Rapid Response — Our 24/7 call center triggers immediate action to assist property owners as soon as possible to save and protect their property.

People — We have highly talented, seasoned professionals who bring specific repair and restoration knowledge and experience relating to any type of property damage.

Expertise — Our repair and restoration projects encompass over 400 residential, commercial, industrial, municipal, school, medical and retail facility repairs each year. We have completed repairs to almost every conceivable type of property.

Geographic reach — Our diverse presence encompasses all of Eastern and Central Pennsylvania and Western New Jersey.

Qualified subcontractors — Our in-depth knowledge of the local contractors serving our territories, coupled with outstanding long-term relationships, enables us to leverage the best value and qualified work crews on our projects.

Satisfied customers — Customer satisfaction is our primary goal. We have a reputation of fulfilling our customer's expectations of the highest quality workmanship at the lowest total cost.

“ Glenn and I would like to thank you for all your help and patience while our house was being built. From the first day we met you at what was left of our home after the fire, you were very caring, understanding, and kind to walk us through the worst time in our life so far. As soon as they got the “O.K.” from our insurance company, they immediately began working on our house. Every single worker that was sent here was respectful, honest and thorough. What a team of absolute professionals. ”

Glenn and Debby Pryor

Personal Residence

St. John's United Church of Christ

Air Products and Chemicals, Inc.

“ Air Products and Chemicals, Inc. is very pleased with the total effort put forth on our Administration III flood recovery. Your initial response and subsequent process used to stabilize and ultimately repair the destroyed areas has many of the employees of the facility pleased and somewhat amazed. My personal thanks to all members of your team and the subcontractors you used. ”

Greg Herber
Manager of Site Operations

“ All of the work done at St. John's UCC in Emmaus has been nothing but the best. You have made my volunteer job at St. John's easy. I was extremely comfortable each and every time you worked at our Church. I know if you do the work, it is nothing but top notch. ”
